Americans for Prosperity Applauds U.S. Senator Johnny Isakson *-Signs No Climate Tax Pledge-*

ATLANTA—The Georgia chapter of the free market grassroots group Americans for Prosperity (AFP-GA) today U.S. Senator Johnny Isakson for signing the group's "No Climate Tax Pledge." Isakson joins more than [650 bipartisan lawmakers and candidates](#) on the federal, state and local levels pledging to **"oppose legislation relating to climate change that includes a net increase in government revenue."**

"The one thing elected officials should be able to agree on is that global warming shouldn't be used as an excuse to hike taxes on citizens and businesses," said AFP-GA State Director Virginia Galloway. "We encourage all of Georgia's elected officials and candidates for elected office to sign the pledge."

Georgia signers include: U.S. Representatives Jack Kingston, Lynn Westmoreland, Tom Price, Tom Graves, Paul Broun and Phil Gingrey; U.S. House nominees Mike Keown and Austin Scott; gubernatorial nominee Nathan Deal; as well as numerous state lawmakers and state candidates.

Cap-and-trade took its first step toward enactment last year when the U.S. House narrowly passed the Waxman-Markey energy tax bill, which escaped the lower chamber by a scant seven votes despite significant bipartisan opposition. The U.S. Senate has struggled to pass companion legislation, with several key Democratic senators expressing opposition to the energy tax bill.

President Obama has made no secret of his support for the bill, which would be the largest tax increase in American history. The Congressional Budget Office scored the House plan as an \$846 billion increase in federal revenue, a burden that will be borne by taxpayers and consumers for decades. Recent [analysis](#) by the Institute for Energy Research found the Kerry-Lieberman Senate bill would cost the nation more than 500,000 jobs by 2015 and decrease household income by over \$1,000 by 2020.

"Using the guise of climate change to transfer dollars from hard-working citizens to bureaucratic big government is unacceptable," said Galloway. "Regardless of their stance on global warming, this should be common ground for all of our elected officials at all levels of government."

The pledge is available online at www.NoClimateTax.com. AFP does not endorse candidates.

All elected officials and candidates are encouraged to sign the pledge and go on the record in opposition to using the climate change issue to increase taxes and grow the size of government.

*Americans for Prosperity (AFP) is a nationwide organization of citizen-leaders committed to advancing every individual's right to economic freedom and opportunity. AFP believes reducing the size and intrusiveness of government is the best way to promote individual productivity and prosperity for all Americans. AFP educates and engages citizens to support restraining state and federal government growth and returning government to its constitutional limits. AFP is more than 1.5 million activists strong, with activists in all 50 states. AFP has 31 state chapters and affiliates. More than 70,000 Americans in all 50 states have made a financial contribution to AFP or AFP Foundation. For more information, visit www.americansforprosperity.org
Americans for Prosperity does not support or oppose candidates for public office.*
